No Funding Sources Found

Narratives

Disaster Damage:

Nearly 3,500 homes were deemed structurally damaged by FEMA and received funding for repair and replacement costs. At least 1,500 homes were destroyed and another 4,000 damaged in the flood. Additionally, over 2,300 properties were recorded as having an average high water mark of two feet or more in their homes throughout basements, first floors, and over roofs. Because of the inundation of water, 98% of these homes were deemed unsafe by FEMA with most lacking flood insurance. Over 3,400 applicants were approved for home repair amounts, with the average repair amount awarded being \$8,200. Additionally, nearly 800 renters, including those who rented mobile homes, received rental assistance from FEMA to assist with temporary housing costs and personal property replacement. Over 1,400 renters applied for FEMA assistance with 780 approved for funding. The average award for renters was approximately \$3,500. Over half of the renters approved for FEMA funding resided in four towns: Clendenin and Elkview along the Elk River in Kanawha County, and Rainelle and White Sulphur Springs in Greenbrier County. Although many renters from these impacted towns were approved for FEMA assistance, only 59 lessors of residential rental property, or landlords, applied for SBA loans, with a mere 29 ultimately approved for funding. Considering the high percentage of uninsured properties throughout the declared counties, it is presumed that there is a substantial share of landlords whose properties have gone unassisted since they are not eligible for FEMA repair funds and applications for SBA disaster loans has been low. Although \$1.8 million in assistance to landlords has been approved through SBA business loans, only \$200,000 has been disbursed thus far. The June 2016 flooding caused significant damage to state infrastructure and facilities, such as wastewater treatment plants and educational facilities were among the most affected. The current calculated total impact to state infrastructure as of March 21, 2017 is \$134 million per FEMA's Public Assistance obligated project details. This amount is expected to almost triple as new projects are approved and obligated by FEMA. Many of the small towns throughout West Virginia, such as Rainelle and Richwood, experienced heavy damage to their local water and wastewater systems. Thus, it will be incumbent upon the State to guide them through the FEMA Public Assistance process to have their systems restored and public services offered to the local constituency base once again. The West Virginia Department of Transportation (WVDOT) has reported an estimated \$56 million of damage caused to the states highway system. A total of 1,300 different locations of state roads were washed out by flood waters and 123 bridges received damage. A total of 15 bridges were completely destroyed and 250 roads were closed due to the storms. Flood waters damaged a total of 67 schools, with five deemed substantially damaged and approved by FEMA for demolition and rebuild. The five substantially damaged schools are in the counties of Kanawha and Nicholas. In Kanawha County, Herbert Hoover High School and Clendenin Elementary were severely damaged. Water from the Elk River crested about 7 feet deep in the first floor at Herbert Hoover High School. Richwood High and Middle Schools, and Summersville Middle School were also severely damaged. The schools will have to be moved outside of the floodplain to minimize the effect of future flooding. There is currently no timeline for when all schools will be rebuilt. FEMA granted \$2 million to aid recovery efforts for schools in Nicholas County. Specifically, the \$2 million grant is being used to pay for temporary facilities. The WV Division of Natural Resources reported over \$2 million in damage to the states

public parks, recreation areas and wildlife.

Recovery Needs:

To determine the housing unmet need, the State first analyzed the 5,130 applicants to the FEMA Individuals and Households Program (IHP) who had a real property verified loss. Forty percent (or 2,088) of the FEMA applicants had an SBA status of FIT (failed income test). Such determination indicates that automatic referral to SBA's disaster loan program was bypassed and these applicants were instead referred directly to FEMA's Individuals and Household Grant Program. Additionally of the applicants who passed the income test and were automatically referred to SBA, twenty percent (or 376) failed the Fixed Debt Method analysis. West Virginia used SBA's disaster loan data for the flood and determined an average real property verified loss amount of \$64,380 among 973 SBA disaster home loan applicants for a total verified loss of \$62,642,237. The State analyzed the remaining 789 unapproved SBA disaster home loan applicants without a real property verified loss amount and found that they were almost all declined for an SBA loan for economic reasons. West Virginia applied the average verified loss of \$64,380 noted above to the unapproved population which yielded a total estimated verified loss for these 789 applicants of \$50,795,820. Thus a total of \$113,437,560 in real property verified loss was determined for the 1,762 applicants who applied for SBA assistance and were ultimately approved or denied a loan. The State reviewed the FEMA IHP dataset and determined that a total of 5,129 FEMA registrants had real property FEMA verified loss amounts. Applying the average SBA verified loss methodology above to this population yields an additional 3,367 applicants (5,129 FEMA applicants less 1,762 SBA referrals already accounted for) with a total of \$216,767,460 in real property verified loss. The State reviewed the FEMA IHP dataset for renters and determined that of the 1,162 renters whose unit was inspected by FEMA a total of 783 had structural damage. Applying the average SBA verified loss methodology above to this population yields an additional \$50,409,540 in estimated real property verified loss for rental properties. The State of West Virginia determined a total real property verified loss among its 5,912 potentially eligible applicants for housing repair and rehabilitation of \$380,614,560. To complete the unmet housing needs assessment, the State reduced the total real property verified loss by FEMA repair payments (\$28,656,603), NFIP building claim payments to individuals (\$27,188,147), SBA home loans for real estate (27,373,186), and SBA business loans to lessors of residential buildings and dwellings (\$1,902,900) to determine a total housing unmet need of \$295,493,724.

Affirmatively Furthering Fair Housing

The States housing programs have been reviewed to ensure the activities will affirmatively further fair housing. Such review included an assessment of a proposed priority areas demography, socioeconomic characteristics, housing configuration and needs, educational, transportation, and health care opportunities, environmental hazards or concerns, and all other factors material to the AFFH determination. Applications should show and will be reviewed to determine whether projects are likely to lessen area racial, ethnic, and low-income concentrations, and/or promote affordable housing in low-poverty, non-minority areas in response to natural hazard-related impacts. Any subrecipients and partner agency will certify that they will affirmatively further fair housing (AFFH) in their agreements with WVDOC, and will receive fair housing training and technical assistance in carrying out all CDBG-DR activities to ensure fair housing obligations are met.

Organization carrying out Activity:

West Virginia Development Office

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
West Virginia Development Office	Unknown	\$ 8,505,921.10

Location Description:

The units will be located in the following counties: Lincoln, Jackson, Roane, Fayette, Summers, Monroe, Webster and Pocahontas. NMID counties in West Virginia.

Activity Description:

West Virginia is allocating grant funds towards a single-family owner-occupied housing rehabilitation program with a focus on prioritizing low-to-moderate income households who received a high amount of flood damage. Funds will be used to reconstruct stick built homes that suffered more than 50% of appraised value and Mobile Home Unit replacements for damages more than 10%. Applicants that do not meet the percentage threshold for reconstruction or replacement, can also apply for repair/rehab costs due to damages from the June 2016 Floods.
