**42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS:** Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
  - c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
  - d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

**43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL:** In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

**44. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE:** W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

REQUEST FOR QUOTATION  
Residential Underground Water Well

General Construction SPECIFICATIONS (No AIA Documents)

**1. PURPOSE AND SCOPE:** The West Virginia Purchasing Division is soliciting bids on behalf of the West Virginia Division of Commerce to establish a one-time construction contract for the following:

**Project Description:** The Division of Commerce is hereby requesting written solicitations from construction contractors with the qualifications and experience for the provision of domestic underground water well drilling services. This service is to address the flood and storm related damages to qualified home water wells, owned by low to moderate income homeowners or rental properties which will serve low to moderate income tenants. Work shall include the inspection and testing of the existing well to determine if the water from that well is potable and to determine if the existing well can be salvaged and or regenerated for use in the home; (i.e. Flush or replace water lines coming from the well to the home, or installing a new pump at the existing well.) If salvaging services can not be achieved for the existing well, then the Vendor will engage in the drilling of a new well. Work shall also include air rotary drilling; setting well screen (if necessary), casing, seal, grout and well cap. The Vendors bid shall include all costs for furnishing, setting up, breaking down, and removal of the equipment necessary to meet the requirements of this contract, as well as any additional costs incurred as a result of performing all work, in accordance with the regulations of the Federal Government and the State of West Virginia. The Vendors bid shall also include costs associated with getting all supplies and equipment to the drilling site and minimal site preparation of drill site. This may require a small bulldozer or tractor to assist in pulling drilling equipment and service trucks to drill sites, although it is not anticipated that this will be necessary. Minimal site preparation may also be necessary, such as removing small bushes, large rocks, and clearing vegetation in the vicinity of the drill sites. The well will be drilled in limestone, sandstone, shale, and coal stratigraphy, so the contractor should have experience in drilling wells in consolidated rocks within the Appalachian Plateaus Physiographic Province. The wells to be drilled are primarily located within the following counties: **Greenbrier, Summers, Clay, Webster and Nicholas.**

The Vendor will be responsible for all aspects of the drilling and installation of no less than a new six inch diameter underground water well. Said Vendor will also be responsible for the electrical wiring and water line required, to be installed from the new well to the home. Said Vendor will be required to assure connectivity of the electrical wiring and water line to the home and that fresh water successfully flows to the home's water system. Said Vendor will also be

responsible for the sealing, filling in, and/or capping of the preexisting single underground water well located on the property. The Vendor will be required to conform to all applicable state and local codes and requirements.

The Vendor shall furnish all materials, labor, and equipment necessary to complete all Construction Services. The Vendor shall furnish any incidental work, materials, labor, and equipment that are necessary to complete the required services, even if such incidental work is not explicitly included in this request.

**3. ORDER OF PRECEDENCE:** This General Construction Specifications document will have priority over, and supersede, anything contained in the Project Plans.

**4.1 Experience:** Vendor, or Vendor's supervisory staff assigned to this project, must have successfully completed at least 5 projects that involved work similar to that described in these specifications or the Project Plans. Compliance with this experience requirement will be determined prior to contract award by the State through references provided by the Vendor upon request, through knowledge or documentation of the Vendor's past projects, through confirmation of experience requirements from the architect assisting the State in this project, or some other method that the State determines to be acceptable. Vendor must provide any documentation requested by the State to assist in confirmation of compliance with this provision. References, documentation, or other information to confirm compliance with this experience requirement may be requested after bid opening and prior to contract award.

**5. CONTRACT AWARD:** The Contract is intended to provide the Agency with a purchase price for well drilling and well refurbishing services. The Contract will be awarded to the lowest qualified responsible bidder meeting the required specifications. If the Pricing Pages contain alternates/add-ons, the Contract will be awarded based on the grand total of the base bid and any alternates/add-ons selected.

Alternates, if accepted, shall be accepted in the order in which they are listed on the bid form. Any unaccepted alternate contained within a bid shall expire 90 days after the date of the opening of bids for review.
