Non-Substantial Technical Amendment 2

West Virginia Disaster Recovery Action Plan RISE WV

Jeffrey A. Wood, Director
West Virginia Department of Commerce

Date

Program Office:	West Virginia Development Office
Grant Opportunity Title:	Community Development Block Grant – Disaster Recovery
CFDA Number:	14.228
Announcement Type:	Non-Substantial Amendment for Technical Changes
Date for Changes:	August 13, 2018 to June 30, 2023

The section below summarizes the changes made to West Virginia’s Community Development Block Grant – Disaster Recovery (CDBG-DR) Action Plan approved by the U.S. Department of Housing and Urban Development in May 2017. This announcement provides several non-substantial, technical changes to the initial Action Plan specifically the Bridge Home Program.

In the initial Action Plan, the Bridge Home Program objectives and description stated: “Given the state’s rugged and rural landscape, many properties have only one access point via roads with bridges, a substantial amount of which were damaged or destroyed during the flood. Due to the large amount of private, non-county maintained bridges that were damaged affected residents have limited or no access to their homes and some do not have access to evacuation routes. Homeowners and renters in West Virginia need this specific assistance. FEMA Public Assistance may not be available to repair these roads due to their lack of public maintenance, even though they provide critical emergency access to families and homeowners. Without the reconstruction of the private roads and bridges, residents will be at high risk when the next disaster occurs.” This Non-Substantial Amendment will maintain the original objectives for the Bridge Home Program with the following Technical Changes:

TECHNICAL CHANGES TO THE ACTION PLAN BRIDGE HOME PROGRAM
